Subject: Microsoft Settlement

Hello,

I would like to state my belief that the proposed settlement does far too little. Especially of concern to me is the lack of a stipulation requiring Microsoft to openly document file formats (see "Findings of Fact" paragraphs 20 and 39). This single act alone, while not remedying Microsoft's monopolistic business practices, would provide a far greater possibility for software companies to gain entry into the many software fields Microsoft dominates.

Thank you,
